

ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

Date/Time: 01/11/05 – 0930
01/10/05 – 1030
01/05/05 – 1300

Site Contact(s): C. J. Freiboth (KH) – (CJF-089)
Phone: (303) 966-2823

Regulatory Contact: David Kruchek, CDPHE
Phone: (303) 692-3328

Agency: CDPHE

Purpose of Contact: Building 995 Complex Digester D1 & D2 Demolition in Support of Characterization Activities

Meeting Attendance:	C. J. Freiboth, KH	David Kruchek, CDPHE
	R. Caulfield, KH	D. George, DOE
	S. Roberts, DOE	S. Garcia, EPA

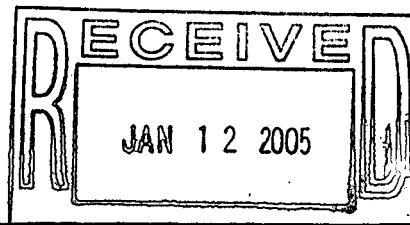

Discussion

On January 5, 2005, at 1300, a discussion was held regarding the disposition of the two digester basins (995-D1 and 995-D2) located at the sewer plant complex. Specifically, the steps necessary to demolish the basin tops in support of completing the Reconnaissance Level Characterization Report (RLCR) final radiological and beryllium surveys. Demolition of these basin tops is necessary to access the remainder of the basins.

The State (Kruchek) requested the work control document steps that would be conducted to ensure that there is no potential to spread any contamination during the demolition activities.

On January 10, 2005, the following was provided to the State (Kruchek) and the DOE which will be inserted into Craft Work Package T0112853-18:

- Perform initial rad surveys using a reaching rod. If contamination is found, stop work and notify a Rad Foreman.
- Collapse the basin tops into the basins
- Perform rad surveys using a reaching rod. If contamination is found, stop work and notify a Rad Foreman.
- Remove the rubble, segregate and stage in the Building 974 drying beds 1 and 2.
- Clean basins to allow for completing characterization
- Once characterization is completed and approved the waste will be dispositioned

It is understood that the rubble removed under this work package will be radiologically and beryllium surveyed in support of completing the RLCR. In addition, if there is any contamination found associated with the segregated and staged rubble, those surfaces that have come into contact with the contaminated debris will be re-characterized and appropriate notifications will be made to DOE and CDPHE.

On January 11, 2005, at 0930, the State (Kruchek) concurred with the approach.

Contact Record Prepared By: C. J. Freiboth

Required Distribution:

M. Aguilar, USEPA
S. Bell, DOE
R. Birk, DOE
C. Deck, KH
D. Foss, KH
S. Garcia, USEPA
C. Gilbreath, KH
S. Gunderson, CDPHE

D. Kruchek, CDPHE

J. Legare, RFFO

R. Leitner, KH

J. Mead, KH

G. Morgan, DOE

S. Nesta, KH

K. North, KH

R. Schassburger, DOE

D. Shelton, KH

C. Zahm, KH

Additional Distribution:

H. Ainscough, CDPHE

R. Caulfield, KH

C. J. Freiboth, KH

D. Mccranie, DOE
